Draft National Pollutant Discharge Elimination System (NPDES) General Permit for Small Municipal Separate Storm Sewer Systems in New Mexico (NMR040000)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of extension of public comment period and rescheduling of public meetings.

SUMMARY: On July 30, 2015, the Environmental Protection Agency (EPA) Region 6 published a request for comments on a draft National Pollutant Discharge Elimination System (NPDES) general permit for storm water discharges from small municipal separate storm sewer systems (MS4s) located within the State of New Mexico except MS4s located in Indian lands, Los Alamos County, the Middle Rio Grande Sub-Watersheds described in Appendix A of the NPDES permit No. NMR04A000, or within the area of another MS4 permit. This proposed permit offers discharge authorization to regulated small MS4s within the boundaries of the Bureau of the Census-designated 2000 and 2010 Farmington, Santa Fe, Los Lunas, Las Cruces and El Paso Urbanized Areas and any other small MS4s in the State of New Mexico designated by the Director as needing a MS4 permit, other than those primarily located in Los Alamos. This

permit is intended to replace the expired general permit NMR040000. In the July 30, 2015, Federal Register notice, the Director also provided notice of public meetings to be held regarding the proposed general permit reissuance. EPA Region 6 is announcing today an extension of the public comment period from October 28, 2015, to December 18, 2015, and rescheduling of public meetings from the week of September 14, 2015, to the week of November 16, 2015.

DATES: Written comments must now be submitted in writing to EPA on or before December 18, 2015.
